Overview of the Ensim Unify Hyper-V Service 1.0.0

The Ensim Unify Hyper-V Service leverages the scalability, and management capabilities of System Center Virtual Machine Manager 2008 (VMM) to help service providers provision Hyper-V based virtual machines to customers. The service provides enterprises with solutions to enable resellers and organizations to easily manage deployment of Self-Service Users as well.

The service has the following component:

- **Hyper-V.** Enables management of Self-Service Users and Hyper-V virtual machines in Unify.

Product compatibility

This release is compatible with the following Ensim Unify platform:

- Ensim Unify platform 4.0.0 or later

Compatibility with third-party software

This release is compatible with:

- System Center Virtual Machine Manager 2008

Related documentation

The following documents provide additional information about Hyper-V:

- *Ensim Unify Hyper-V Service Installation Guide*: Instructions for installing the Hyper-V Service
- *Ensim Unify Hyper-V Service Getting Started Guide*: Instructions for configuring SCVMM 2008 and Unify prior to deploying Virtual Machines to Organizations.

Documentation is also available in the Ensim Unify section of the Ensim Support site, <http://support.ensim.com>. All customers receive passwords that allow access to this site. If you do not have a password, contact your organization's liaison to Ensim.
